

INS Series - Insertion tools for ICT test probes

To ensure the maximum lifecycle it is important to use the correct tool. During insertion, it is recommended to avoid pressing down the plunger over the working travel and to damage the tip.

INS Series:

- INS-UNI - Universal probe insertion tool with PEEK head
- INS-050-0.6 - Insertion tool for 50mil probes
- INS-075-0.7 - Insertion and extraction tool for 75mil probes
- INS-100-1.1 - Insertion and extraction tool for 100mil probes

Replacement BIT (BIT-INS-xxx-xxx) and handle (H-2.6) can be ordered separately.
